**RE: EB Docket No. 06-36 CPNI Certification for
STS Telecom, LLC**

Dear Ms. Dortch:

In accordance with Federal Communications Commission's Public Notice of January 29, 2008, and pursuant to 47 C.F.R. § 64.2009(e), STS Telecom, LLC hereby files its Certification of Customer Proprietary Network information (CPNI) for the year 2007 and supporting Statement. As directed by the Public Notice, please include this Certification in EB Docket No. 06-36.

Please contact me at 407-740-3031 or sthomas@tminc.com if you have any questions about this filing.

Sincerely,

Sharon Thomas
Consultant to
STS Telecom, LLC

**ANNUAL 47 C.F.R. § 64.2009(e) OFFICER'S CERTIFICATION OF
CUSTOMER PROPRIETARY NETWORK INFORMATION (CPNI) COMPLIANCE**

EB Docket 06-36

Annual 64.2009(e) CPNI Certification for Calendar Year: 2007

Name of company covered by this certification: STS Telecom, LLC

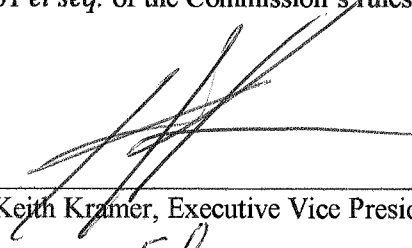

Form 499 Filer ID: 825590

Name of signatory: Keith Kramer

Title of signatory: Executive Vice President – Legal and
Regulatory

I, Keith Kramer, certify and state that:

1. I am the Executive Vice President – Legal and Regulatory of STS Telecom, LLC and, acting as an agent of the company, I have personal knowledge of STS Telecom, LLC's operating procedures as they relate to CPNI, and the Rules and Regulations of the Federal Communications Commission regarding CPNI.
2. I hereby certify that, to the best of my knowledge, information and belief, STS Telecom, LLC's operating procedures are adequate to ensure compliance with its CPNI obligations pursuant to Section 222 of the Communications Act of 1934, as amended, and the Commission's rules found at 47 CFR Subpart U.
3. Attached to this certification as Exhibit A is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

Keith Kramer, Executive Vice President – Legal and Regulatory

Feb. 18, 2008

Date

STS Telecom, LLC

Statement of CPNI Procedures and Compliance

STS Telecom LLC (“STS” or “the Company”) does not use or permit access to CPNI to market any services outside of the total service approach as specified in 47 CFR §64.2005. If STS elects to use CPNI in a manner that does require customer approval, it will follow the applicable rules set forth in 47 CFR Subpart U, including the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

The Company trains its employees as to when they are and are not authorized to use CPNI. Employees receive this training during their new employee initiation and in annual refresher training. STS has a strict disciplinary process in place for the unauthorized use or improper disclosure of CPNI, which includes suspension or immediate dismissal of employees who violate the Company policy.

STS maintains a record of all sales and marketing campaigns that use CPNI. All outgoing marketing campaigns are reviewed and must be approved by the Company’s internal Regulatory Affairs Executive who is knowledgeable regarding CPNI requirements, prior to initiation of the campaign. The Company also maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI.

STS has processes in place to safeguard its customers’ CPNI from improper use or disclosure by employees and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI. The Company has a strict policy prohibiting the disclosure of CPNI to any third parties, unless required to do so by the law (e.g., in response to a subpoena).

The Company has instituted authentication procedures to safeguard the disclosure of call detail over the telephone. Customers are authenticated by the Company’s account manager or agent at the time of service initiation, when the customer’s identity is readily authenticated. At that time, at the customer’s request, a password is issued, which does not rely upon readily available biographical information or account information. STS has also established back-up authentication procedures for lost or forgotten passwords that utilize pass code questions that do not rely upon readily available biographical information or account information.

If the appropriate password is not provided, STS does not disclose call detail over the telephone in response to a customer initiated inquiry, unless the customer can provide the call detail information that is the subject of the inquiry without the assistance of a customer service representative.

STS has instituted authentication procedures to safeguard the disclosure of CPNI on-line. These procedures do not require the use of readily available biographical information or account information as defined by the FCC. The company authenticates customers at the time of service initiation when the customer establishes a password for online access. Passwords do not rely on readily available biographical information or account information. Unless the appropriate password is provided, STS does not allow on-line access to CPNI. If a customer loses or forgets their password, the customer's identity is re-authenticated without the use of readily available biographical information or account information.

STS immediately notifies customers whenever a password, online account, or address of record is created or changed without revealing the changed information or sending the notification to the new account information.

STS does not have any retail locations and therefore does not disclose CPNI in-store.

STS has put in place procedures to notify law enforcement in the event of a breach of customers' CPNI and to ensure that customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement. While the Company has not had any breaches to report, it has a process in place to maintain records of all breaches discovered and notifications made to the USSS and the FBI, and to customers.

The Company has not taken any actions against data brokers in the last year.

STS did not receive any customer complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI in calendar year 2007.

To date, the Company has not developed any information with respect to the processes pretexters are using to attempt to access CPNI. However, all employees undergo training to recognize pretexters' methods, as outlined by the FCC. STS utilizes its quality assurance call monitoring as one method of detecting potential pretexting.
